Intelligence-as-a-Service

Gain on-demand access to our team of expert analysts.

Time is of the essence, and we are here to help. Whether you need a long-term solution, which supports all aspects of business and cyber-risk monitoring, or one-time help from our experts, we are here for you.

Capabilities

Analyst-on-Demand (AoD) Program
Get the support you need with on-demand research and analysis such as portfolio exposure reports, data retrieval, malicious tools acquisition, actor engagement, or profiling.

Data Retrieval
Gain the help you need to locate and retrieve compromised proprietary data. With unmatched coverage of the cybercriminal underground, and a network of strategically placed, multilingual undercover agents, our team is on standby around the clock to help you.

Criminal Profiles
Accurate attribution of the attacker is crucial both during the ongoing intrusion investigation and the situational threat assessment. Receive comprehensive reports on a per-request basis, providing you with information such as an in-depth assessment of the actor's capability, attack vectors, and other crucial indicators.

Company Risk Exposure Analysis
Understand your risk with highly detailed and accurate in-depth industry or company exposure reports that provide you with a vital assessment of past, current, and potential threats from cybercriminal groups or lone actors, as well as recommended mitigation strategies.

Brand and Reputation Monitoring
Receive 24/7 monitoring for potential brand and reputation-damaging activity by malicious actors. Our unmatched coverage of the cybercriminal underground allows us to conduct monitoring with specially trained teams ready to intervene at a moment's notice.

Gemini's Edge

Our experienced team of multilingual analysts have been embedded for years and possess intimate knowledge of the underground economy, as well as experience engaging with criminal actors, giving us unparalleled insight and access to dark web data.

Key Benefits:

- Access time-critical assistance to help mitigate the damage of active threats.

- Augment your team with our expert analysts.

- Receive services tailored to your needs on an ad-hoc or ongoing basis.
